Cold storage intelligent machine

COLD STORAGE INTELLIGENT UNIT

Name: cold storage intelligent machine	Brand: ice rock	Type: split
Number of horses: 3P	Category: Low Temperature	Applicable temperature range:-22. C to-18'C
Applicable cold storage area (m2):10-25	Applicable cold storage height (m):3-4	Applicable cold storage volume (m3):30-100
External dimensions (MM): long 952 * deep 438 * high 823	Air cooler size (MM): long 960 * deep 530 * high 526	

- Low noise refrigeration special compressor, large air volume, silent external rotor condensing fan

- Intelligent on–demand hot air defrosting system with dedicated cold air cooler for hot air defrosting

- Electronic expansion valve throttling control

- Independently developed intelligent control system for high–pressure automatic protection device of the system

- Complete electrical configuration remote monitoring and maintenance module

Cold storage intelligent machine

COLD STORAGE INTELLIGENT UNIT

Name: cold storage intelligent machine	Brand: ice rock	Type: split
Number of horses: 5P	Category: Low Temperature	Applicable temperature range:-22 ℃ to -18 ℃
Applicable cold storage area (m²):25-40	Applicable cold storage height (m):3-4	Applicable cold storage volume (m3):75-160
External dimensions (mm): long 966 * deep 438 * high 1327		Air cooler size (mm): long 1570 * deep 530 * high 526

● Low noise refrigeration special compressor, large air volume, silent external rotor condensing fan

● Intelligent on–demand hot air defrosting system with dedicated cold air cooler for hot air defrosting

● Electronic expansion valve throttling control

● Independently developed intelligent control system for high–pressure automatic protection device of the system

● Complete electrical configuration remote monitoring and maintenance module

Cold storage intelligent machine
COLD STORAGE INTELLIGENT UNIT

Name: cold storage intelligent machine	Brand: ice rock	Type: split
Number of horses: 8P	Category: Low Temperature	Applicable temperature range:-22 ℃ to -18 ℃
Applicable cold storage area (m2):40-55	Applicable cold storage height (M):3-5	Applicable cold storage volume (m3):120-270
External dimensions (MM): long 805 * deep 805 * high 1445	Air cooler size (MM): long 1870 * deep 600 * high 615	

- Low noise refrigeration special compressor, large air volume, silent external rotor condensing fan
- Intelligent on–demand hot air defrosting system with dedicated cold air cooler for hot air defrosting
- Electronic expansion valve throttling control
- Independently developed intelligent control system for high–pressure automatic protection device of the system
- Complete electrical configuration remote monitoring and maintenance module

Cold storage intelligent machine
COLD STORAGE INTELLIGENT UNIT

Name: cold storage intelligent machine	Brand: ice rock	Type: split
Number of horses: 10P	Category: Low Temperature	Applicable temperature range:-22 ℃ to -18 ℃
Applicable cold storage area (m²):55-70	Applicable cold storage height (m):3-5	Applicable cold storage volume (m3):165-350
External dimensions (MM): long 805 * deep 805 * high 1445	Air cooler size (MM): long 2620 * deep 600 * high 612	

- Low noise refrigeration special compressor, large air volume, silent external rotor condensing fan

- Intelligent on–demand hot air defrosting system with dedicated cold air cooler for hot air defrosting

- Electronic expansion valve throttling control

- Independently developed intelligent control system for high–pressure automatic protection device of the system

- Complete electrical configuration remote monitoring and maintenance module

Cold storage intelligent machine

COLD STORAGE INTELLIGENT UNIT

Name: cold storage intelligent machine	Brand: ice rock	Type: split
Number of horses: 12P	Category: Low Temperature	Applicable temperature range:-22 ℃ to -18 ℃
Applicable cold storage area (m2):70-85	Applicable cold storage height (m):3-5	Applicable cold storage volume (m3):210-425
External dimensions (MM): long 970 * deep 970 * high 1728	Air cooler size (MM): long 2420 * deep 732 * high 725	

● Low noise refrigeration special compressor, large air volume, silent external rotor condensing fan

● Intelligent on–demand hot air defrosting system with dedicated cold air cooler for hot air defrosting

● Electronic expansion valve throttling control

● Independently developed intelligent control system for high–pressure automatic protection device of the system
